

Introduction to Chainmail: Basic Weaving Techniques with Jet Orsi - Supply List

Material List:

- 2 needle nosed/snipe nose pliers (you need one in either hand)
 - (Not sure if the Jewelry studio has a ton of these or not but if the class is digital I'd say the students should buy them, you can get 2 for about \$25)
- 1 pair of wire cutters (approved for aluminum nothing harder) - about \$10
- Aluminum wire/crafting wire - between 18-24 gauge
 - (small bundle from a craft store or amazon \$5 - 10)
- 1 wood dowel rod (1/2 inch to 3/4 inch diameter)
 - these come long so if students know each other they can buy one and cut it in half to share, they need 1 rod about 1.5 feet in length
- 3oz Bags of jump rings (would recommend Weavegotmaille.com) 18AWG 7mm
- 3oz bags of jump rings 18AWG 4.75mm
- Claw hook clasps
- *Optional - bags of scale mail for embellishment*
