

Advanced Virtual Colored Pencil Workshop with Fernando Porras - Supply List

This 2-day workshop is a comprehensive learning experience designed to guide those students who already took the beginners/intermediate workshop and are looking to improve their techniques with colored pencils and markers through more advanced instruction and professional tips.

We will be taking different approaches to drawing with both colored pencils and markers, depending on subject matter, surface, and message, and go deeper into the subtleties of lights, textures, transparencies, and reflections.

Different styles will be studied to help you with your sketching speed and the character of your plein-air drawings and your portraits.

Prior to the workshop, you will receive the exercises, already developed and separated step-by-step, to have on your computer or printed by your side while the instructor does the demonstrations.

No prior knowledge or experience is necessary.

4 CLASSES TOTAL:

Tuesday May 19th - 10:00AM - 12:00PM - (break for lunch) - and 1:00 - 3:00PM

Saturday May 23rd - 10:00AM - 12:00PM - (break for lunch) - and 1:00 - 3:00PM

MATERIALS:

Recommended Colored Pencils:

- Prismacolor Premier (24 or 48 count). This is my preferred brand and quality.

Drawing Paper:

- I use regular 20-pound bond paper (regular paper used for printing).
- Strathmore Drawing - 24 sheet block - works well.

Markers:

- Chartpak brand has been my favorite for many years. Buy as many colors as you want, as the selection never ends. They are sold as small or large sets, or individually.

Marker Paper:

- Bienfang Graphics 360 Marker Paper 11x14 non-bleeding, translucent paper can be ordered from Blick stores online. There are many other good brand options. Make sure the papers you buy for marker are non-bleed through.

Alcohol Marker Sets on the next page.

Advanced Virtual Colored Pencil Workshop with Fernando Porras - Supply List

Alcohol Marker Sets:

Set of 12

- Colorless Blender
- P180 Basic Gray 5
