Pizza Boxes

For transporting wet paintings via car, pizza boxes are ideal. Just go to your local pizzeria and buy the sizes that match your canvases.

Wet Panel Carriers

RayMar's wet panel carriers in various sizes.****

Rubbermaid shelf liner

Pieces of that rubbery stuff work well under paintings in your pizza boxes & trunk because it prevents them from sliding around

TRAVELLING EASEL

www.Sun-Eden.com

Light weight tri-pod easel, easel shelf and panel/canvas adapter
Variety of choices

ART BAG For Plane Travel

I use a bag similar to Swissgear 7261-21" Rolling Convertible Duffel. Other backpacks that fit your gear can otherwise be strapped to a wheeled luggage carrier for back-relief on smooth terrain.

Important Note:

This is Erin's list of personal supplies. It is not demanded that you buy each and every item. Bring the supplies that you are most comfortable with and you will still have a great painting experience! French easels are also great for car travel, or you can simply sit on the ground and have your paints beside you.
